PROSPEROUS FROM THE START.

The Acme Mills Running Day and Night and Doing a Big Business.

The Acme Mills, which were opened for business about the first of October, at once entered upon an era of unexampled success. From the very start the new plant has done a good business and about the first of November orders began to come in so rapidly that a night force was put on and the mills are now running to their full capacity, something over 300 barrels in 24 hours.

A reporter of the KENTUCKIAN called at the mills, on the corner of Fourteenth and Railroad streets, yesterday and found Mr. R. H. Dreville and Mr. John B. Galbreath, the officers of the company, in fine spirits.

Said Mr. Dreville: "We are starting out with very encouraging prospects. We have from the start had a good local business and now shipping orders are coming in from all over the South. We are just loading up a car to-day to fill a Southern order."

"These orders come from all directions. We have within the last few days sent shipments into North Carolina, South Carolina, Georgia and Tennessee."

"What are your brands?"

"Our best patent is the Eagle. Then we have a standard brand, the Acme, and a family flour, the Omega. These flours are unequal to similar grades from the best mills in the United States. In fact, our plant is without a superior anywhere, being up-to-date in every respect, with all of the very latest improvements for doing the best work."

"Have you wheat enough to keep going?"

"We have a storage capacity of 40,000 bushels and we bought largely last summer, and are still buying, paying 80 cents a bushel. We are receiving shipments by rail and from wagons every day and expect to run to our full capacity throughout the season."

"Do you make meal as well as flour?"

"Well, I should say so. We have the best meal plant in this part of Kentucky and make the finest of pearl meal. We make a specialty of exchange business and our customers can get both flour and meal without waiting. We take their wheat and corn and give them the finished products at once. The old plan of waiting one's turn for hours, or a whole day, is a thing of the past. The customer need not be delayed longer than is necessary to unload and load his wagon."

"This feature will no doubt be a great accommodation to the farmers and will be a most popular one when it becomes generally known."

The entire mill plant is lighted by electricity and run by steam. It has its own cooper shop and every department is in charge of a skilled and competent man. This new enterprise is already on a firm footing and it will continue to succeed as long as its products are equal to the best and business affairs are in the hands of its present efficient managers.

New Heights House.

Mr. Jake Samuels, proprietor of the Royal Liquor House, inserts a conspicuous ad. in to-day's KENTUCKIAN. He is located opposite the First National Bank, in the house recently vacated by Mr. J. B. Reeves, and is ready to serve the public. Mr. Samuels has in stock all the best brands of whiskies, such as the Famous Old Frontier, Ky. Oaks, Old Thoroughbred, Ky. Belle of Nelson, Anderson Co., Crystal Springs, Robertson Co., and many other excellent brands, besides a complete line of brandies, wines, gins, fine cigars, etc. Besides entering to the retail trade in quantities from half pint up to a barrel, the house will also do a wholesale business. Nothing will be sold by the drink at all. The proprietor of the establishment is well known to the people of Hopkinsville and Christian county, having lived here for some time, and is an excellent business man and begins business with flattering prospects.

N. Y. Male Quartette To-Morrow Night.

The New York Male Quartette with Miss Nichols, will be at the Opera House to-morrow night, and the remarkable advance sale is a sufficient attest to their popularity. The company is composed of Frank J. Corbett, tenor; Harry F. Dean, tenor; Frederick F. Bryan, baritone; Douglas Lane, basso, and Miss Nellie Nichols, reader.

It is sufficient to say that it is the same company that we here twice last year for the Library Association. Everybody who heard them wants to hear them again and those who did not hear them last year should not miss this opportunity.

Miss Nichols is without a superior and the members of the quartet not only sing perfectly together, but each one is a soloist of ability. The company is the same as last year. The program is new.

Tickets now on sale at Galbreath's.

Vaneburg's electric lights are about ready to turn on.

Church Burned by Lightning--Dead in Bed--Thieves at Work--Council Chatter.

Struck by Lightning.

Lightning struck the Methodist church at Fairview Tuesday morning about 3 o'clock and burned it to the ground. The loss will approximate \$1,500, with no insurance. The organ, pulpit, pews, chairs and chandeliers were saved.

Water Turned On Again.

The rains of this week enabled the Water Company to turn on water again, for the first time since Sept. 25. The connections were all made on the 17th inst. The company has taken steps to double its capacity and does not anticipate any trouble next summer.

The New Council.

The present city council will hold one more regular meeting, on Friday night December 3. Their successors will take the oath of office on Monday December 6, and hold their first meeting that night to elect the caucus members of the Democratic party for its offices. Prior to that time all of the pie still have been sliced and but little delay will occur in the distribution.

Bold Theft at Bell.

Some thief broke open a barn belonging to Dr. John F. Bell, at Bell, Ky., a few nights ago, and hauled off about 25 bushels of clover seed. The seed were taken to Clarksville and sold. Dr. Bell identified his property and had the sacks carried back home. Henry Batson, col., was arrested and taken to Clarksville, but he could not be identified as the man who sold the seed and he was discharged from custody.

PERSONAL GOSSIP.

Mr. Will Norton has returned from New York.

Miss Tommie Petree is visiting Miss Sue Hall, near Montgomery.

Attorney S. W. Fory, of Elkton, was in town Wednesday.

Judge Brown has returned from a business trip to Louisville.

Misses Greame Campbell and Annie Stirling are visiting relatives in Louisville this week.

Mr. W. T. Williamson has gone to the Indian Territory to visit his son, Harvey Williamson.

Mrs. J. B. Rogers and little daughter have gone to Georgia to spend the winter with Mrs. Rogers' parents.

Miss Marie Tyler has returned from New York and will remain here until her marriage about the middle of next month to a prominent young physician of Bowling Green.

The Eclectic Medical Association of the State met in Paducah this week. Dr. Jas. A. Young, of this city, was a visitor, and discussed "The Mutual Interests of Eclectics and Homeopaths in Kentucky."

Mr. W. E. Ragsdale, who has been at Ashville, N. C., for two or three months, is constantly improving. He wrote a friend this week that he created a big sensation in the dining room of his hotel on the morning of Nov. 3. He was eating his breakfast when he received a telegram telling him that the Sixth ward was still Democratic. The yell he gave caused every guest in the room to jump to his feet to inquire what was the matter with the red-headed and red-hot free silver Democrat from Kentucky.

The constitutional amendment was defeated by 5,289 majority.

MATHEMATICAL.

Boyd-Johnson.--E. L. Boyd and Miss Ella Johnson, well known members of society, were married at the bride's home, near Kelly Station, at six o'clock Wednesday evening. Rev. Alex McCord, of the Baptist church, officiating.

HENDERSON-HENDERSON.--Sheridan Henderson and Miss Katherine Henderson were united in marriage at Mrs. M. E. Shaw's boarding house, on Main street, at noon Wednesday, Nov. 18. Rev. R. S. Carter, of the Episcopal church, officiating.

GARNETT-GRAVES.--William J. Garnett and Miss Nell Orerton Graves were united in marriage at the Pembroke Baptist church, at six o'clock last evening. Rev. J. G. Bow, pastor of the church, officiating. Mr. Garnett is one of Pembroke's most highly esteemed and promising young men, and the bride is a very charming young lady, a sister of Mr. C. E. Graves, of this city. They have many friends who will bespeak for them a happy future.

BRANE-CRENSHAW.--Mr. A. Ewing Brane and Miss Myrtle Crenshaw were married at the home of the bride's mother, Mrs. M. Crenshaw, near Roaring Springs, Tuesday, Eld. T. D. Moore, of this city, officiated. The young people are members of the most prominent families of Trigg county and are very popular in society.

DEATHS.

CRAVENS.--Miss Hannah Cravens died at the home of her brother-in-law, Mr. J. M. Hickman, in this city Wednesday evening, of typhoid fever. She was a daughter of Mr. Wm. Cravens, of Julien, and was 17 years of age. She was a pupil of Bethel Female College, in the senior class. Her funeral services were held yesterday and her schoolmaster attended in a body. The body was taken to the country for interment.

Found Dead in Bed.

Mr. Gideon Barnes, of near Wallonia, Trigg county, was found dead in bed last Tuesday morning. He was visiting at the home of Mrs. J. J. Martin, a relative, when he died. The supposition is that he died of paralysis. He was about 45 years of age and had been an invalid for several years.

THE WONDERS OF SCIENCE.

Lung Troubles and Consumption Can be Cured.

An Eminent New York Chemist and Scientist Makes a Free Offer to Our Readers.

The distinguished New York chemist, T. A. Slocum, demonstrating his discovery of a reliable and absolute cure for Consumption (Pulmonary Tuberculosis) and all bronchial, throat, lung chest, diseases, stubborn coughs, catarrhal affections, general decline and weakness, loss of flesh, and all conditions of wasting away, will send THREE FREE BOTTLES (all different) of his New Discoveries to any afflicted reader of the Hopkinsville Kentuckian writing for them. His "New Scientific Treatment" has cured thousands permanently; it is a simple professional duty to suffering humanity to donate a trial of his infallible cure.

Science daily develops new wonders, and this great chemist, patiently experimenting for years, has produced results so beneficial to humanity as can be claimed by any modern genius. His assertion that lung troubles and consumption are curable in any climate is proven by "heartfelt letters of gratitude" filed in his American and European laboratories in thousands from those cured in all parts of the world.

Medical experts concede that bronchial, chest and lung troubles lead to Consumption, which, uninterrupted, means speedy and certain death. Simply write to T. A. Slocum, M. C., 98 Pine street, New York, giving post office and express address, and the free medicine will be promptly sent. Sufferers should take instant advantage of his generous proposition.

Please tell the Doctor that you saw his offer in the Hopkinsville Kentuckian.

Two presidential postmasters were appointed in Kentucky Saturday, Ben W. Hall at Mt. Sterling, and John M. Jamison, Jr., at Millersburg.

329-331 THIRD AVENUE. LOUISVILLE, KY.

The Century Magazine for the Coming Year.

The Century Magazine, with its November number, enters upon its twenty-seventh year. During its long existence, by reason of its many notable successes, it has won an assured and commanding position. During the coming year The Century will maintain its exceptional position as a magazine of entertainment and as a leader in art and thought.

Its pictorial features will be notable, and it will command the services of the best artists, illustrators and engravers of this country and of Europe.

Nothing like a complete announcement of its literary features can be attempted now. Dr. Weir Mitchell, whose novel of the American Revolution, "Hugh Wynne," is the great success of the year, has written a new story for the present volume. It bears the piquant title: "The Adventures of Francois; Foundling, Adventurer, Juggler and Fencing Master during the French Revolution. The tale is full of romance and adventure. Mrs. Burton Harrison contributes a new novel of New York life, called "Good Americans," in which contem-poraneous social type and tendencies are brightly mirrored and described.

There will be a group of clever stories about horses and people who like horses, under the general title of "Gallopers." "A Woman's Reminiscences of the French Intervention in Mexico" will be given in a series of graphic and highly picturesque papers by Mrs. Cornelius Stevenson. Further contributions to the interesting series of "Hearts of Peace" will be made by Jacob A. Riis, Gustave Kobbe, Elizabeth Stuart Phelps Ward and others.

For the benefit of readers of The Century and unusual offer is made for this year. There has been issued "The Century Gallery of One Hundred Portraits," made up of the finest engravings that have appeared in the magazine, and representing a total expenditure of nearly \$30,000. These are printed in heavy plate-paper, with wide margins like proofs. The retail price of the gallery is \$7.50, but this year it will be sold only in connection with a subscription to The Century, the price of the two together being \$6.50.

Where the Battle Raged.

Elizabethtown News: The great battle that was won in Kentucky November 2 began at the Owensboro railroad convention in 1895, and the brilliant leaders and dead-game fighters who began the contest there have never wavered nor faltered in a terrible up-hill fight of more than two years. Their names compose a roll of honor for Democracy and they should never be forgotten. They were Joe Blackburn, Wat Bardin, John Rhea, Urey Woodson, Jim Richardson, Chas. Wheeler, Ollie James, Bill Ellis and Chas. M. Meacham.

Contest Fought in Bell.

Pineville, Ky., Nov. 13.—The members of the Citizen's ticket, which was defeated for the various county offices November 2, served notice of contest on the successful candidates, as follows: T. K. Kellums on James F. Neal, county judge; Robert Creech on William T. Davis, county clerk; C. Hurst on E. N. Ingram, county attorney; Tom Keefro on J. M. Green-jailer. The petition alleges frauds practiced in all the precincts of the county.

Hon. J. D. Hunt, of Jackson, Tenn., who with Mrs. Hunt is here on a visit to Mr. Walter Kelly's family, is one of the prominent Democratic leaders of his State. He is a member of the State Executive Committee, and Trustee of Madison County, an office having control of the county funds. He is also a probable candidate for State Comptroller at the next election. Mr. Hunt, like most Tennessee Democrats, is an ardent champion of the money plank of the Chicago platform.

OFFICE 113 SOUTH MAIN STREET.

—FRIDAY NOV. 16, 1897.

The Gleason gang of rape fiends are on trial at Newport this week. They will be given separate trials.

Prof. Chas. Alberti, the prominent Lexington politician, is critically ill and cannot recover.

South Trimble, the young representative elect from Franklin county, and a Democratic candidate for Speaker, is given a handsome send off in the Frankfort Ledger this week. He is one of the brightest young men who will be in the next House.

Mrs. Emma Walker Herr and Mrs. Mary Brown Day are rival candidates for Enrolling Clerk of the Senate, with a strong probability that Mrs. Mollie C. Bennett, widow of the late Judge Bennett, will also enter the race.

The official figures are Shackleford 187,482; Bailey 169,678; Hindman 9,583; Parker 7,289; Wallace 1,805. Shackleford lacked only 873 votes of beating the combined vote of Bailey and the also-rans. His plurality is 17,804.

The recent political revolution brought a good many young men to the front in the Democratic party. In Nelson county Frank E. Daugherty, county judge elect, is only 28 years old, and in Rockcastle R. G. Williams, elected to the same office, is only 27 years of age. The future hope of the Democratic party is in the young men of the State and it is right and just that they should be properly recognized.

Mayor Weaver's first official act was to appoint Editor Robt. W. Brown, of the Louisville Times, as his private secretary. The place pays \$1,500 a year and will not necessitate a surrender of Mr. Brown's position as managing editor of the Times. Bob has never been at heart much of a gadabouting fellow and the press boys are all glad to see this touch of prosperity coming his way.

There are nine lady candidates for State Librarian. This office is probably made all the more popular with the ladies from the fact that the present Librarian has married since she went into office. The aspirants this time are Mrs. Martin of Berea; Mrs. Dixon, of Moreau; Miss Pauline Hardin, of Louisville; Miss Lelia Callahan, of Henderson; Miss Margaret Ingles and Miss Lucas, of Bourbon; Miss Catherine, of Franklin, and Miss Barnett, of Henry. Miss Callahan and Miss Hardin are the leading candidates.

According to some of the Hindman papers of Louisville, Tony Carroll—whose single vote defeated Blackburn and who has for two years been an active enemy of the Democratic nomination, working as the head of another political party—is to be one of Mayor Weaver's appointees. If the proposed "harmony" is to end by a betrayal of the party as soon as the new Mayor gets into office, it will be the end of all attempts to harmonize with so called gold Democrats. Let this be an object lesson to the Democratic caucus of Hopkinsville in making their appointments. If we are to have a Democratic administration, no go about, in or out of the party, regular or irregular, in his use of the secret ballot, should be given any official place. We have several men in office now, elected as Democrats, who eighteen months ago signed a Wall street circular calling upon Democrats to follow Jno. G. Carlisle out of the Democratic party and sent thousands of them out under two coat stamps, using a part of the bonds fund that defeated Bryan. Followers of Carlisle are not Democrats and officials elected by Democratic votes have no right to put such men in office. The contests of 1890 and 1892 are yet to come and none but true, tried and loyal to the Democrats should be placed on guard in this free silver city. Stand every candidate on the platform with both feet before you even consider his application.

HERE AND THERE

—The bread made by Anderson & Miller is genuine cream bread. Next door to John Mosyon, Main street.

A marriage license was issued Wednesday by T. W. Good and Ella Goodrin. The parties are colored.

A young man by the name of Wm. Byron was injured in a shooting scrape in Dallas, Tex. As a result he and two others will die. In his dying statement he said that he was from Princeton, Ky.

—The cream bread made by Anderson & Miller's confectionery store is delightful. Next door to John Mosyon, Main street.

John L. Preston, of Henderson, has been appointed express messenger for the American Express Company on the L. C. trains between Evansville and this city.

A nice line of California fruits at Anderson & Miller's confectionery. Main street, next door to John Mosyon.

Col. Bill Howell, the new Commonwealth's Attorney, is making a fine impression, and is going right down after law-breakers. His speech in the "Bum" Wolfe case was about the warmest thing we have heard since the days of Commonwealth's Attorney Crossland. He is also very energetic in procuring indictments and the grand jury will turn out a large batch this round—Murray Ledger.

—We manufacture all candy sold at our place. See the fine line of hand made goods. Anderson & Miller, Main street, next door to Ken Luckian office.

McClure Kelly was elected a member of the Executive committee of the Kentucky and Tennessee Association at Louisville, Wednesday. The Association is a body composed of fire insurance people, who have entire supervision of the two States mentioned. The appointment is always considered highly complimentary, but it is especially so in this case, as Mr. Kelly is by far the youngest man ever put on the committee.

The Democratic council caucus in Paducah nominated the following appointive officers: "R. T. Lightfoot, city attorney; W. H. Patterson, county clerk; J. T. M. Jarvis, city engineer; Horace T. Rivers, city physician; James Woods, fire chief; W. E. Augustus, assistant fire chief; J. V. Goff, assessor; F. D. Jarvis, license inspector; R. B. S. Manife, lockup keeper; Fred Ingram, wicket master; Ford Williams, city weigher; Sam Davis Fowler, wharf master; J. T. McKinney, hospital keeper; J. W. Cook, city chain gang boss."

Thieves are stealing nearly every thing not nailed down in South Christian. Corn thieves drove wagons into the field of T. S. Winfree and Jas. Johnson, near Beverly, one night this week and gathered the corn from the shocks.

New Postmaster at Lafayette.
Henry C. Locker has been appointed postmaster at Lafayette, vice C. B. Fraser resigned. There were a number of applicants for the place.

Furs and Fur Trimmings Dominant Dame Fashion Now.

Delightful Combinations of Sable and Seal—A Veritable Chinchilla Revival—The Latest Fur Fabrics.

(Special Chicago Letter.)

No sooner do we find ourselves in the first chilly days of autumn weather than our thoughts turn to the most natural manner towards the cozy warmth of furs and fur-trimmed garments, and we begin at once to take the most lively interest in the all-important question of which particular fur will be the most highly favored by the capricious and

stratagem, made of seal combined with sable and with fur and mink to match. Speaking of mink reminds me that all the latest patterns are very large in size, and many have a most conveniently arranged pocket on the inside, large enough to hold the purse and other small belongings.

Although coats and jackets are in the greatest demand, the popularity of the fur-trimmed and generally becoming cape is not on the wane by any manner of means. Some very handsome ones are seen in the full circular shape, very similar to those worn the latter part of last winter, made entirely of fur and lined in the most luxurious manner with heavy broadside sable in some delicate coloring like pale blue, rose pink or light yellow. Other capes there are made entirely of Persian lamb's paws, which, while very elegant in general appearance, are not at all high in price. This idea of using the paws of the animal was first introduced in the French models, and although, novel, not to say striking, has taken wonderfully well, and garments made in this style are quite the proper thing to buy according to those high in authority.

Nothing could exceed in distinctness the new evening wraps made of the beautiful fox furs, both silver and white. They are made mostly in the short full cape style, with white satin linings, and while beautiful to look upon are only to be counted among the possessors of the fur who can afford to indulge in luxuries; for, alas, they are very costly and, more's the pity, none too durable.

Never were dress materials more artistic in coloring or more beautiful in texture than now; and never were the gowns themselves more pleasing in style or more graceful in contour than all-conquering Russian blouse, as turned out by an up-to-date modiste, has many charming features, while the new skirts are perfect in both fit and finish. They are made to fit more closely about the hips than any yet seen, and at the hem are considerably fuller than those worn last season. The tendency of the prevailing fashions is toward more or less elaborate trimming of the skirt, and among the latest models the trimmings are rarely seen. In fact, many of the sweetest gowns have the lower part of the skirt almost covered with velvet applique, which is some times tapered to a point quite near the waist. Gaiety and Chantilly lace in applique designs ornaments some of the more modish gowns of cloth; while en-

semble goddess of Fashion. And so it happens for this very reason that just now "bluffs" as to the present and coming fashions in furs will prove appropriate and interesting reading to many women, and especially so to those very fortunate ones to whom a handsome fur garment is one of the assured possessions of the near future. To judge from the many charming models now on exhibition at the leading establishments this is to be a veritable winter of fur. Sable, that lovely and most exquisite of all furs, used alone and in combination with seal, will be the leading favorite this season. It is seen in particularly good advantage in the pretty new shoulder capes which have just appeared within the week. These very smart-looking little capes are lined with ivory white broadside satin and are made with an upright frilled collar of sable, while inside of this, arranged in the most becoming manner, is a full width of pure white lace fastened in front in a loosely tied bow and held in place by small jeweled pins. The effect of the soft lace on the dark fur is really most excellent, and a temptation to passing that on many of the handsomest and highest-priced garments for fur and lace in combination are used in the most liberal manner.

Chinchilla fur with its lovely soft tones of gray will also occupy a prominent position among the fashionable furs this winter, both alone and in combination with dark furs. It will be much used for dress and hat trimmings, too, and is exceedingly effective on the new shirred velvets so much sought after in the world of millinery at the present moment. Chinchilla and seal combine in a really delightful manner, the rich dark coloring of the one seeming to enhance in beauty the soft, dainty tones of the other. French furriers in particular understand the art of placing these two furs together, and somehow are able always to bring about the most tasteful and artistic results from the combination.

Many of the newest sealskin coats are made in the full ponched shape; both back and front. And wonderfully pretty, while looking they are, too, with their full little busques which stand out so prettily from the figure. This style of coat requires a belt of some kind.

THE LATEST FUR COAT.

Autumn walking costume. In velvet in a more or less showy pattern which adorns many of the silk costumes.

Autumn walking costume made of velvet in all the popular shades as well as black will be much in evidence as the season advances. As many of these gowns will be designated in the Russian blouse style and trimmed with bands of dark fur and jet passementerie. For those to whom velvet gowns are impossible luxury there remains always the useful and ever appropriate face cloth that comes in any number of beautiful shades, and which, whether combined with velvet and fur or trimmed simply with braid, always holds its own and looks genteel to the last.

In women goods cashmere is the idol of the hour. Many of the best dress-makers are making their smartest gowns of this soft, clinging fabric, and it seems the ideal material for the present style of gownmaking, as it drapes delightfully and, apparently, of its own accord, falls into the most artistic folds imaginable.

There is certainly much to admire and little to condemn in this season's fashions. The shapes are elegant and varied that each particular face can be suited, and surely it will be a woman's own fault if she wears an unbecoming dress. The latest style of winter ban which was so popular in straw during the last days of summer seems to have taken a new lease on life in both felt and fur. The latest style of the hats in black velvet and trimmed with any number of waving plumes, are beautiful in the extreme and will prove becoming to the majority of winter wear. Many of the newest hats have very broad crowns, the trimming being kept low, but spreading at the sides, and the style is in the line of the hat which is simply bordered by the brim and connected in front by a large bow of velvet drawn through a large jeweled buckle. The latest styles are almost on the back of the head, and it will take some time for us to become accustomed to them.

Dr. M. C. Wilson, ex-corporator of Keaton county, died from a self-inflicted wound.

It has been held that consumption is hereditary, and the fact that one person of a family had died with consumption was considered a sure sign that others of that family could not escape it. This is partly true and partly untrue. A man with weak lungs is likely to transmit that weakness to his children. But there is no reason in the world why the weakness should be allowed to develop. Keep the lungs full of rich, red, wholesome blood, and the weakness will disappear. Decaying tissues will be thrown off, and new material will be added until the lungs are well and perfectly strong again. This is the thing that Dr. Pierce's Golden Medical Discovery does. This will make it cure 98 per cent. of all cases of consumption where it is taken according to directions. It searches out disease germs wherever they may be in the body and forces them out of the system. It supplies the blood with rich, life-giving properties. It makes the appetite good, digestion perfect. Send 21 cents in one-cent stamps for Dr. Pierce's Discovery Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser," profusely illustrated.

HOT WATER FOR MILLIONS.

London's Plan to Use the Waste Heat of Street Lamps.

Among the conveniences that have accrued to civilization since the penny-in-the-slot order was instituted, the latest claimant is the Pluto waste heat economizer. Only you do not put a penny in the slot, it is only a halfpenny, thus showing how far credit can be refined down to almost the vanishing point of monetary outlay. The heating power that is rescued from waste is to be found in the ordinary street lamp, and when you put in your halfpenny you get in exchange a gallon of boiling water. A select crowd of people went to the Crystal palace to see the new invention in use, and to hear an explanation of it while it was working. In principle the Crystal palace lamp is all right. There is a tall street lamp, painted green and picked out with gold, a bright gas light burning in the glass panes above the fluted metal column, and a spout projecting from one of the panels of the square pedestal. The halfpenny investor in the steaming liquid supports his vesper on a metal basin below, drops his little coin in the slot, pulls a lever, and gets what he wants.

The principle of the thing works out in this way. Gas is largely used as an illuminant, and when it is solely used its heat is lost. Why not utilize the lost heat? This the inventor does by placing above the name of the lamp a spiral coil fed with water from the main. By the heat of the flame the cold water is converted into steam, which, expelled by its own expansive force through an ordinary dead-weight safety valve down a pipe to the lamp post, there heats the water by means of an iron coil. Of course, for the supply of hot water to be continued, the light above must be continually aflame; and it is, therefore, the intention to keep the lamp fitted with the "Economizer" burning day and night. Having got thus far in theory, the imagination of the syndicate runs in every direction as regards its application in practice. The syndicate argues in this way: "That there is a public demand for such hot water is evidenced by the growing popularity of the East End, and for the supply of this indispensable commodity. Considering hot water is a primary necessity of life, constituting nearly half of the domestic water consumption, and that it costs a fortune to get it, it is a matter of fact that to light a fire especially to boil a gallon of water, it is obvious that such a saving, if successful, would be a vast boon of the widest public importance, as it is intended to keep these lamps burning day and night."—Pall Mall Gazette.

Soberly Up the Worst Case.

An empty ten-foot oil tank is used in Waverly, W. Va., as a lock-up for tramps and drunks. A fever was put in it the other day, and the tank was then rolled about for a couple of hours, the villagers hammering on it with clubs. Then the prisoner was released, a thoroughly sobered man.

THE NEW OVERSKIRT.

Unstained and Very Long and Has a Prolonged Skirt.

They are showing overskirts upon many of the new dresses, and it is interesting to see how varied in style such a simple article as an overskirt can be. One of the most recently imported models was of light gray silk cashmere.

The sensible thing to do is to immediately fortify the system with Dr. Pierce's Golden Medical Discovery. It vitalizes and invigorates the entire constitution. It gives the digestive and nutritive organs power to extract nourishment from the food and turn it into rich, healthy blood. It creates appetite, good digestion, and solid, muscular strength.

It is far superior to the mere temporary stimulus of mal-extracts. It is better than cod liver oil emulsions because it is assimilated by the weakest stomach.

"About fifteen years ago," writes Mr. John McMichael, of the City of New York, "I was in very poor health, had no appetite, was sluggish, and my blood seemed impure. I began taking Dr. Pierce's Golden Medical Discovery, and in a few days I began to feel better. I continued to take it until I was cured. I am now in perfect health, and I can do any kind of work I wish to do. I feel that I owe my recovery to Dr. Pierce's Golden Medical Discovery."—Pell's.

A sure and permanent cure for constipation. Dr. Pierce's Golden Medical Discovery is a gentle laxative, two mild cathartics.

THE OVERSKIRT EFFECT.

Trimmed with ruffles of the same. These extended all around the overskirt and up the front of the belt line. The overskirt was worn over a plain gray velvet skirt.

The waist was of light gray silk cashmere, edged with hot water velvet. The collar and the waist lapel were of belted. There was also a yoke trimming of steel beads in fancy design.

This dress was the most elegant of any of the newly imported ones, and was designed for a calling or a carriage gown. The hat to be worn with it was of gray felt, profusely trimmed with heliotrope feathers.

LEISURE HOUR DRESS.

Called the Little Girl's Fauntleroy House Dress.

A new Fauntleroy dress has been made for the little girl. It is a dress that can be worn for a school rig, but it is planned more properly for the house, because it is made of very light material that sells cheaply and it has a distinctness that hardly suits it for school wear.

A little dress of this kind worn by the youngest daughter of Lord Rosebery

GIRL'S FAUNTLEROY DRESS.

was made of white cashmere, very thin and soft. The skirt was round, of equal fullness front and back, and was trimmed round the hem with a ruffle. The sleeves were big at the shoulder and fitted tightly at the waist. The waist was a blouse with a tiny ruffle around the neck.

The distinctive feature was a little shoulder cape or bolero, which was worn with it. This was made of black satin edged with a small white satin ruffle. The cape was cut rounding in front and plain across the back. It had epaulets of black satin edged with a white ruffle. A standing collar fastened the neck. This little cape made the dress quite a picturesque article, and with it the little girl wore black stockings and black patent leather slippers.

MRS. GLEY CAMPFIELD.

Personality and Social Well-Being.

If anyone imagines that his own personality can be developed apart from that of others, he makes a fatal error. In savage tribes there is much uniformity and monotony. No one has much to do or much to say; therefore life is on a low plane and progress is slow. But, as civilization increases, differences become more marked, special talents develop, special tastes arise and are gratified, special thoughts and ideas find a bracing atmosphere in which to live. The thing to notice is that, as these differences multiply, so both personality and social well-being are enhanced. Instead of variations drawing them apart, the bonds which unite them are the more closely drawn—Leisure Hours.

Professional Amateurs.

"Did you read the story in this morning's paper about Kitty Calhoun stopping a runaway horse?" asked the copy-

ist. "I ain't surprised," said the subreite. "I wish you could make up that story a runaway clock."—Cincinnati Enquirer.

"The enemy is coming. To the front!"

When a wise man receives a warning of danger, he does not let it overtake him; he seeks every reasonable means to resist it.

Disease would almost never get the best of the average man if he was prepared to resist it, and took the natural precautions dictated by common sense.

When a man's stomach and liver get upset and full to their regular work, he may be certain that something worse is bound to follow, if he doesn't look out for himself. Headaches, indigestion, biliousness and constipation are simply Nature's warnings that the enemy of serious disease is coming to attack him.

The sensible thing to do is to immediately fortify the system with Dr. Pierce's Golden Medical Discovery. It vitalizes and invigorates the entire constitution. It gives the digestive and nutritive organs power to extract nourishment from the food and turn it into rich, healthy blood. It creates appetite, good digestion, and solid, muscular strength.

BOSTON'S GREAT PREACHER.

The Rev. J. B. Brady, D. D., Advises His Many Parishioners to Take Paine's Celery Compound.

The Rev. James Boyd Brady, pastor of the People's Temple in Boston, presides over the destinies of the largest Methodist church in the country. Big, candid, Scotch-Irishman that he is, Dr. Brady has built up the Temple financially and numerically, and to-day he is the pastor of a flock of 1200.

Dr. Brady devotes himself with unflinching courage to anything he undertakes. The chief characteristics of his ministry have been progress, in number, financial condition and moral and spiritual growth. He is a man of plain, but vigorous words. So much has been said and written about Dr. Brady—his work, his progressive methods, his eloquence and his power as a minister, that the following letter from him will be convincing and helpful to many persons besides the large number who are every Sunday influenced for good by his powerful preaching. He writes:

Paine's celery compound. If widely and wisely used, would relieve nervousness, soothe restlessness, reduce sickness, strengthen the body, invigorate the mind, and add years of happiness to life.

JAMES BOYD BRADY,
Pastor People's Temple.

The man or woman who does not take time to get well will sooner or later have to take time to be ill.

Many live under the needless infliction of indigestion, nervousness, constipation, and general weakness, and endure the consequent loss of health without considering how easily the cause of all this illness might be remedied. Needless nerve and tissue nourishment is at the bottom of all permanent building up of the health.

Paine's celery compound looks out for the lesions wearing of the nervous system through malnutrition. It gives a healthy tonic to the stomach, increases the blood supply, and promptly feeds the tissues when the body vigor is at its lowest ebb, and should not be further taxed.

The only cure, therefore, for rheumatism, neuralgia or general debility that is lasting in to good effects must rest on a radical cleansing of the blood and a building up of the nervous tissues. All this is best done by Paine's celery compound, because this remarkable remedy begins at the beginning, wherever there is disease, and establishes the health firmly and beyond any fear of falling back.

The worn-out person who cannot sleep should take Paine's celery compound. It is fully to be imagined that every hour taken from sleep is an hour gained. Nothing undermines health and energy like loss of sleep. The nervous system suffers as much from lack of

sleep as from lack of nourishment. Both may be supplied and a healthy condition insured by using Paine's celery compound.

The stay and staff of sound health is well nourished and well regulated nerves, suffering from sleeplessness, nervous dyspepsia or headache may be sure that every reservoir of nerve force has been tapped and exhausted by worry, worry, too little sleep, or fastidious nourishment, because of poor digestion, and assimilation. As soon as signs of nervous exhaustion are noticed, shaky hands, broken sleep, poor appetite, wasting diseases, neuralgia or dyspepsia, take advantage of the remarkable restorative and regulating action of Paine's celery compound.

Nervous disorders increase in a sort of compound ratio. It is a thousand times easier to put a stop to nervous debility in its earlier stages than later on to correct nerve and brain exhaustion, that may be complicated by heart, kidney or some other organic trouble.

Paine's celery compound must not be confounded with any of the plasterlike, but really temporary make-shifts, whose cures are never permanent nor thorough-going, and only bring deferred hopes that make the heart sick. Paine's celery compound is the greatest nerve and brain invigorator and most reliable blood purifier the world has ever been blessed with.

The Murray Ledger suggests Judge Jas. Breathitt as a Republican candidate for Governor and pays him this very neat compliment:

"This term of court ends Judge Breathitt's judicial career so far as Murray is concerned. During his short term on the bench Judge Breathitt has made a vast number of personal friends, though it is evident that many of them differ from him politically. He has worn the judicial ermine with becoming dignity and becoming grace. He has performed his duties in a fair and impartial manner. During the long and heated campaign no man attributed to him other than ability, learning, fairness and impartiality. He retires with all the honors obtainable from the high position and even the most partisan political

enemy will agree that here is one honest Republican."

Wonderful South American Blood Cure
